To The Chamber:

If anyone compliments me on our kitchen, I tell them that it's all due to the expertise of Prairie Woodworks. I have LOVED working many hours for the past 24 years in such a well-designed and well-crafted space. The cabinetry still looks as beautiful as when it was installed, and all the drawers and doors still work impeccably. We have also enjoyed Prairie Woodworks cabinetry in several other rooms with the same degree of appreciation.

I highly recommend the expertise and quality of work this team of craftsmen and artisans have achieved.

It would be well deserved if they were to receive the Chamber's Small Business Award of Excellence.
